INSTRUCTION BOOKLET

WARNING: PLEASE CAREFULLY READ THE PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME PAK OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions
Altered vision

Eye or muscle twitching
Involuntary movements

Loss of awareness
Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

⚠ WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

PLAYING A GAME

Mission Goals

The mission goals and objectives are displayed before each level.

Accomplish these goals before the time limit in order to advance to the next level.

Game Screen

Check the top of the screen often for vital information pertaining to the level.

- **Health** — Milo's health is shown as a blue health bar. When Milo takes damage, the health bar will decrease in size. When the health bar is gone, Milo will lose a continue.
- **Continues** — The number next to Milo's portrait shows how many continues Milo has left. When the number reaches 0, the game is over.
- **Time Left** — A clock shows how much time is left to complete the goals for the level. When the clock reaches 0, Milo will lose a continue and will have to restart the level.
- **Power-ups** — Find power-ups along the way to help Milo in his quest.

Power-ups

Milo has one power-up slot available to retain a special ability. During his adventures, Milo will find items and power-ups that he can grab to enhance his abilities. However, when he grabs another item, it will replace the existing ability in his power-up slot.

To borrow an ability, walk up to the power-up icon on the screen. The power-up ability will be transferred to Milo's power-up slot.

Blow up objects using dynamite.

Drill through floors with this tool.

Throw wrenches at enemies or switches.

Throw the boomerang at enemies.

Take no damage with Kida's invulnerability.

Gain either 50% or 100% health.

The Shepherd's Journal is a checkpoint. After finding one, you will restart from its position when you've lost a continue.

Note: Most power-ups can be used repeatedly. However, the health and invulnerability power-ups can only be used one time. Press the B Button to use the item and clear the power-up slot.

Items

Crystal

Crystals are scattered and hidden throughout each level. Collect the crystals to earn extra lives. Before each level, the Mission Goals screen will show how many crystals are hidden. Find all the crystals in the game for a surprise!

King's Eye Crystal

The King's Eye Crystals are the stones from the water in front of the King's throne. They mark the location of the heart of the city. Collect the pieces of the King's Eye to learn the secrets of Atlantis.

Bonus Letters

Collect one gold letter from every level for a hidden surprise!

Pausing the Game

Press **START** at any time to pause the game. Select **RESUME GAME** to return to the action, or **QUIT GAME** to exit the game and return to the Main Menu.

SAVING AND LOADING

Disney's Atlantis The Lost Empire uses a password system to save and load an existing game. After completing a level, the screen will display a code, or password, for you to remember. Write this down onto a piece of paper before turning the power OFF.

Saving the Game

The only way to save your game is to receive a password. Packard will give you a new password at the end of each level.

Loading the Game

ENTER PASSWORD

Select CONTINUE from the Main Menu to load a previously saved game. Use the Control Pad UP/DOWN to select a character, then press RIGHT. Now select the next character and press RIGHT on the Control Pad again. Continue the process until the password is complete, then press the A Button to confirm.

If correct, you will return to the game. If incorrect, you will return to the Main Menu and can begin a new game.
